Sample Eulogy

Today we are honoring, celebrating, and remembering (full name of deceased]. She was a woman of grace and courage, with a stubborn streak that showed up when she set her mind to something, like going back to school to become a nurse at age 40. Born to the proud parents of in the small district of Riversdale, St. Catherine. She was the first of two girls. She attended the School. Her career path led her to become a registered nurse, this she did with much diligence and care for over 25 years at the Regional Hospital.

My mother was truly my best friend and I am humbled by the challenge of describing the fullness of her beauty and caring here today. I don't know how she did it, but Mom always found the perfect balance between work and home. Even though she worked 40 – 50 hours a week to support us, she prioritized family dinner. That time was sacred to our family. Her love and kindness were infused in everything she did, whether she was baking cookies for a bake sale to help the hospital or sewing our Christmas dresses for church year after year.

She had a magical way of bringing joy every time she walked into the room. No one who met her could forget her smile. And I'll never forget the advice and the lessons she taught me. Her wisdom will forever guide the decisions we make through the rest of our life

Sadly, on August 10, mom loss her battle with breast cancer
