Pastor Adrian Johnson

Family and Men's Ministries
Director

About EJC Men's Ministries

The purpose of Men's Ministries is to support initiatives that are designed to help men become "Christ-like" leaders in their homes, churches and communities. The purpose of the department is to connect men of all ages to God, the Bible and peers for the purpose of growing and making supportive connections.

Message from the Director

As we conclude the third quarter, I want to celebrate our collective achievements and the impact we've made in our community. The continued launch of the Brothers of Excellence Attaining Morals and Standards (BEAMS) initiative in our local churches has been a significant step in fostering integrity and leadership among our men. Additionally, the Prostate Cancer Awareness Forum provided vital information on health and prevention, empowering participants to take charge of their well-being. The JAMU Men's Convention was another highlight, uniting men in fellowship and spiritual growth. Thank you for your dedication and support as we continue to uplift and strengthen our community together.

Pastor Adrian Johnson
EJC Family and Men's Ministries Director

Prostate Cancer Awareness Forum

On September 28, 2024, the East Jamaica Conference hosted an insightful online Prostate Cancer Awareness Forum via Zoom in recognition of Prostate Cancer Awareness Month. The event brought together a diverse audience eager to learn about the importance of prostate health and early detection. With expert insights from medical professionals, attendees gained valuable knowledge about risk factors, prevention strategies, and treatment options. The forum aimed to empower men and their families with information to make informed health decisions, reinforced the significance of regular screenings.

Guest speakers included distinguished medical doctors, along with EJC President Pastor Meric Walker and Men's Ministries Director Pastor Adrian Johnson, who emphasized the biblical dimensions of health awareness. The forum successfully raised awareness, fostering a proactive approach to prostate health in the community.

Recordings can be found on EJC youtube page.
